About SIG Analyst Program

- A selective semester-based program where an analyst, or a team of analysts, research a publicly traded company to provide an investment recommendation of BUY / HOLD / SELL
- An analyst will analyze a company primarily following the fundamental approach
- The analysts will be guided by either a Senior Analyst or Portfolio Manager (PM) throughout the research process
- Upon successfully completing the program,
 - the PMs may extend return invitations to the analysts for the following semester or academic year
 - an analyst may receive a promotion to become a Senior Analyst or a Portfolio Manager
- An analyst may be let go from the program if the analyst continuously shows lack of involvement, commitment, quality, and / or other events that prevent an analyst to perform effectively
- The Analyst Program is designed to provide a well-rounded experience to students who are interested in career paths including banking, investment, consulting, corporate finance, accounting, and other career paths that require analytical skills
- During the Program, an analyst will have the opportunity to develop the followings:
 - Analytical skills
 - Research skills
 - Industry knowledge
 - Company-specific knowledge
 - Financial statements analysis
 - Financial modeling
 - Valuation methods
 - Presentation skills
 - Communication skills
 - Teamwork
- Priorities will be given to applicants who:
 - Have experience or knowledge in topics such as investing, equity research, valuation, accounting, and / or corporate finance; or
 - Show exceptional level of interest and commitment
- The number of analysts selected may be limited. Therefore, it is important that anyone interested in the Analyst Program demonstrates commitment and follows the application instructions

Thank you for your interest in the Analyst Program!

Good Luck!
